AN ANDI GROUP COMPANY

## Marketing Update from American Skylites: NEW SKYLIGHT PRODUCTS

### Circular Skylight

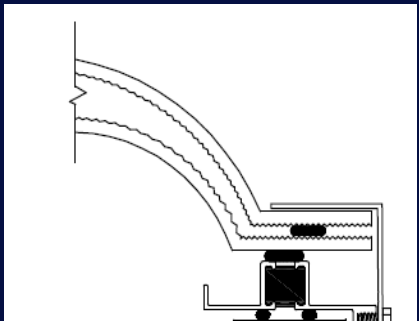

For the ultimate in design flexibility, incorporate any of the entire line of skylight products including the new circular skylight from American Skylites. Available in sizes from 24" ODC up to 96" ODC and in all of our standard finishes and glazing types, the circular skylight will allow you to Design With Light!

- Circular shape
- Sizes from 24" to 96" ODC
- Painted and anodized finish available
- Acrylic, polycarbonate and prismatic glazing available

### Prismatic Glazing

Prismatic glazing offers the ultimate in diffusion to enhance your natural daylighting design. Offering the toughness required to be used in our fall protection products, prismatic glazing can be used in nearly every product we produce.

- High light transmitting acrylic material
- 100% diffusion
- Impact resistant material
- Available in all standard sizes
- Lower cost than comparable monolithic products

### American Patriot

The American Patriot skylight is fully assembled, glazed and ready for action! This is a true metal framed, custom skylight in job ready form. Available up to 8' x 8' pyramid or in sections for ridge openings 8' x unlimited length this product drastically reduces field labor and time on the job site.

- Shipped fully pre-assembled
- Shipped fully pre-glazed with insulating glass from 1" up to 1-5/6" thick
- Tints, Low E and other high performance products available
- Pyramids up to 8' x 8'
- Ridges up to 8' x unlimited length (ships in sections partially assembled)
- Painted and anodized finish available
