6mm SG WITH BEAD

11mm DG WITH BEAD

14mm DG WITH ALUM SOLID BEAD

The Corporate range of windows is purpose made from W20 steel sections.

The range offers versatility in application, from size and shape, to joining to form extensive composite windows. The large opening casements and the slim frame members ensure maximum daylight.

An effective weatherstripping system and the option of double glazing up to 14mm in thickness, add good thermal insulation properties. A popular choice with conservationists, planners and clients such as English Heritage.
