

GAF has been proud to work with the ARCAT team to greatly expand the avenues that put our products in front designers and specifiers.

*- Helene Hardy Pierce, FRCI
Vice President of Technical services*

ARCAT has been instrumental in getting our products specified with Architects through various avenues, including print, web and of course their spec writing wizard.

*- Stephen Giumenta
Owner*

The Michael Rizza Co. Inc. has been with ARCAT since May, 2003. This has been one of the best decisions that I ever made for my company. Business picked up soon after joining them. Now that business economy has slowed down ARCAT has been creating new ways to get to the customer.

*- Don Iosty
Owner*

We were bidding Museum/Arts Center in Massachusetts for protecting 87 columns. We determined that the project architect at Gensler had gone to the ARCAT site and downloaded the 07811 spec that you recently wrote for us, for inclusion in the project specifications. I believe the spec was live for less than a week.

*- Bill Dempster, CSI
International Paint HVI Market Manager - North America*

Since 2011, County Materials' partnership with ARCAT has dramatically helped to increase our exposure to a larger and more diverse segment of the specifying community than before. We are convinced that this exposure has greatly increased our opportunities for being specified on projects requiring concrete construction and landscaping products.

*- Kevin Melvin
Veneer Division Manager*

Finlandia Sauna has been an ARCAT customer for many years. We are very pleased with the responses from architects and builders. We have had many downloads of our three part spec and our CAD drawings, some have resulted in sauna jobs for our company.

*- Marilyn Tarkianen
VP Sales & Marketing*

Below is what one of our Western Rep Firm contacts had to say about this tool:
The ARCAT is awesome. It has been a big hit with every engineer that I have spoken with. My other manufacturers are wishing they were on it. Several of them are attempting to get on ARCAT as we speak. Not only is Quiktron ahead of the curve with this offering but your team has accomplished this feat quickly and efficiently.

- Crystal

As an ARCAT subscriber for the past two years, we have noticed a substantial increase in the number of new projects in residential, assisted living, and military for which we are being specified, and we attribute this success directly to ARCAT!

- Suzanne Owens
VP, Sales & Marketing

ARCAT is a key resource for the architectural community and we feel it is an integral part of advertising and making information available to architects, designer and specifiers.

- Robert Naini
Chief Operations Officer

I wanted to let you know how thrilled we are with the ARCAT service, the results have been fantastic to say the least, especially after last year when we brought one of our lines into the world of BIM.

- Stephen Kistner
General Manager

I have been using SpecWizard through Hadrian's website since late September. I have been sending the link to specifiers, architects and designers. The feedback they have been giving me is excellent.

- Susan Gosney
Ontario Representative

I've been using SpecWizard quite a bit. I've enjoyed actually walking Architects through writing the spec while I am on the phone with them. Very positive responses. Thanks again, it was a pleasure working with you.

- Michael Sather
Commercial Specification Sales
