This unit features the outside dimensions of 63" of overall width. This does not allow for full enclosure of the bolts that are used to secure the bars and seat in place. This may require the need to notch studs to allow for bolt clearance for installation. For a dry wall enclosed fire wall installation, adjustment of the wallboard may be necessary to provide clearance of the bolts while maintaining the integrity of the drywall fire wall enclosure.

NOTE: THIS UNIT WILL NOT ACCEPT A DOOR.
