### CLOSED RISERS

Camp Logan's closed risers are subjected to a thorough cleaning and zinc-phosphate pretreatment. And they undergo an extensive and proven multi-step powder coating process, including a polyester powder coating, to provide a beautiful scratch and scuff resistant, anti-rust free surface.

- Eliminate hassle of transporting parts
- Environmental accessibility
- Easy use and managing cost of operations
- Quality finish: Multi-step pretreatment zinc primed and glossy polyester powder coat.
- Standard color black
- High quality 16 gauge steel
- Weight per tread along with riser is 90 lbs
