

2.040"

The image shows a technical drawing of a curved mechanical component. The component is defined by two parallel lines that curve from the bottom left towards the top right. The upper line has a horizontal section at the top, followed by a short angled section, and then a horizontal section. The lower line has a horizontal section at the bottom, followed by a short angled section, and then a horizontal section. A dimension line is drawn on the left side, with arrows pointing to the top and bottom horizontal sections of the lower line. The dimension is labeled '2.040"'. The drawing is rendered in red lines on a white background.
