

1.883"

The image shows a technical drawing of a curved mechanical component. A vertical dimension line on the left side indicates a height of 1.883 inches. The component has a curved profile with a horizontal top edge and a horizontal bottom edge. The top edge features a small notch or cutout. The bottom edge is also horizontal and appears to be slightly thicker than the top edge. The entire drawing is rendered in red lines on a white background.
