

Boral Steel® Architectural Details are divided into three (3) categories based on the install method used:

BATTEN (Panel is exposed fastened & mounted onto a wood 2x2 batten or steel hat channel)

DIRECT (Panel is exposed fastened & mounted Direct-to-the roof-deck)

GRANITE-RIDGE Shingle (Panel is hidden fastened & mounted Direct-to-the roof-deck)

Architectural details provided for Boral Steel® customers only

***Panel fastener lengths have been exaggerated to show that they must penetrate the decking and/or structural member.**

Panels: Bend and cut "Short Course" as needed to fit panel lay-out.

Support Batten:
Install nominal 1"x4"
spruce, pine or fir #2
or better to support
transition panel.
