

Boral Steel® Architectural Details are divided into three (3) categories based on the install method used:

**BATTEN** (Panel is exposed fastened & mounted onto a wood 2x2 batten or steel hat channel)

**DIRECT** (Panel is exposed fastened & mounted Direct-to-the roof-deck)

**GRANITE-RIDGE Shingle** (Panel is hidden fastened & mounted Direct-to-the roof-deck)

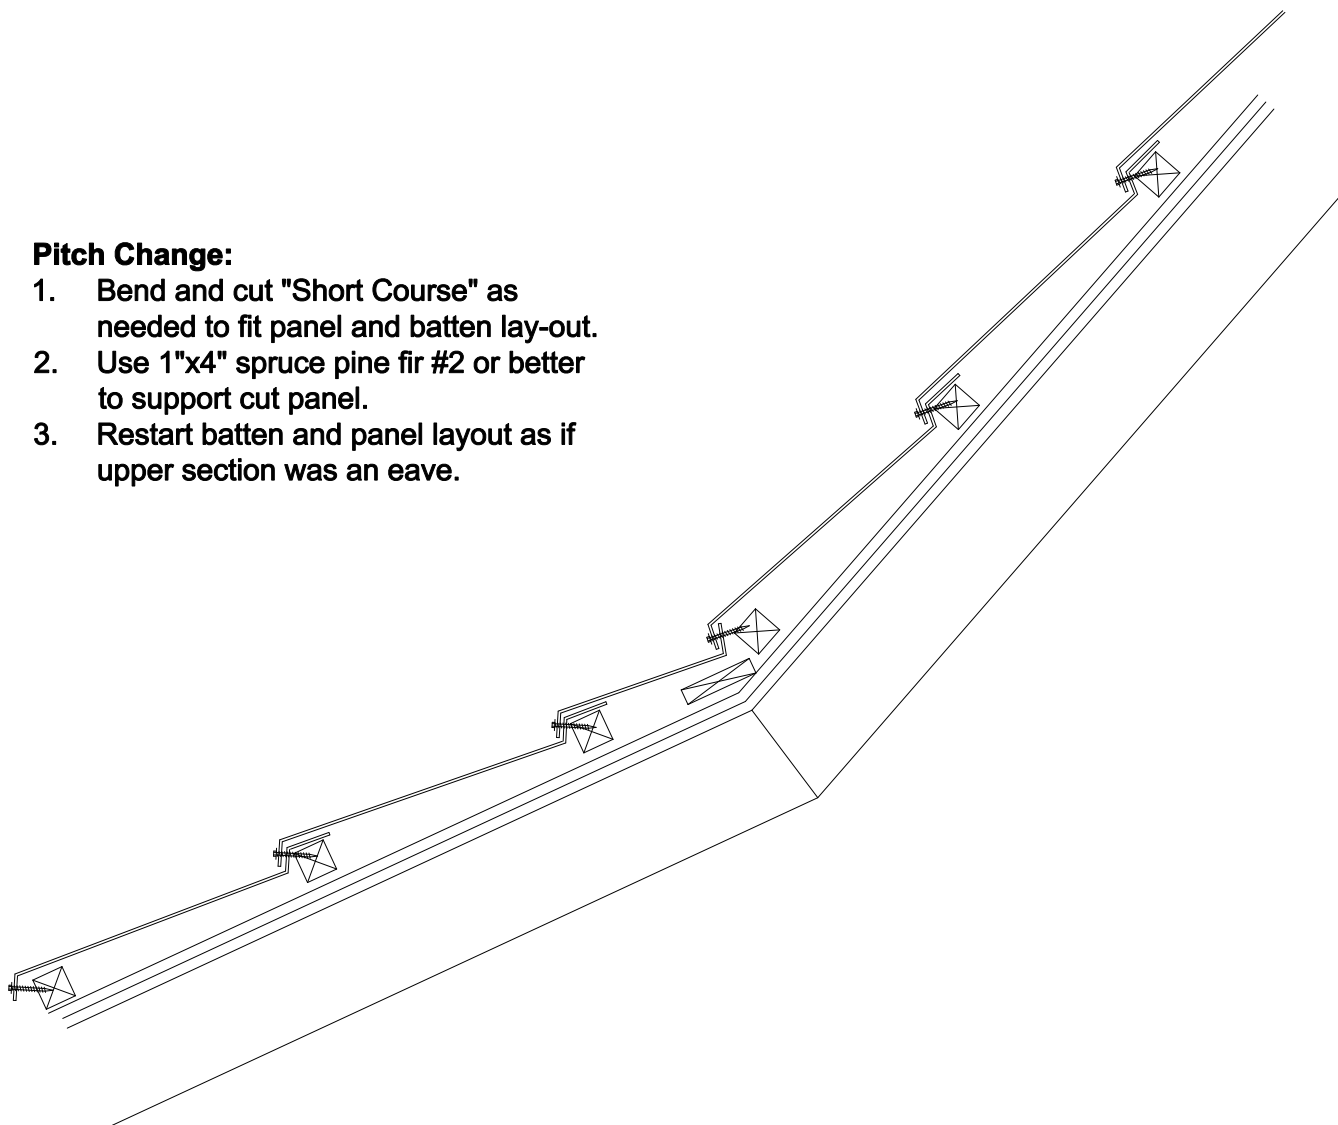

Architectural details provided for Boral Steel® customers only

**\*Batten Fasteners omitted for clarity.**

**See fastening drawings for panel and batten attachment.**

**Pitch Change:**

1. Bend and cut "Short Course" as needed to fit panel and batten lay-out.
2. Use 1"x4" spruce pine fir #2 or better to support cut panel.
3. Restart batten and panel layout as if upper section was an eave.
