

TELECAB

ELEVATION NEW TYPE-18

FLOOR PLAN SYSTEM

FLOOR PLAN-OUT NEW TYPE-18

PROVISIONS BY OTHERS

GENERAL: This contract is for the design and construction of a telecab system. The contractor shall be responsible for obtaining all necessary permits and approvals from the local authorities. The contractor shall also be responsible for coordinating with the building owner and other trades to ensure proper installation and operation of the telecab system.

DESIGN: The telecab system shall be designed to meet the requirements of the applicable codes and standards. The design shall include detailed drawings of the telecab car, the shaft, the hoistway, and the landing. The design shall also include a schedule of materials and a list of equipment to be used in the system.

CONSTRUCTION: The telecab system shall be constructed in accordance with the design and the applicable codes and standards. The contractor shall be responsible for obtaining all necessary permits and approvals from the local authorities. The contractor shall also be responsible for coordinating with the building owner and other trades to ensure proper installation and operation of the telecab system.

OPERATION: The telecab system shall be operated in accordance with the design and the applicable codes and standards. The contractor shall be responsible for providing training to the building owner and other personnel who will be operating the telecab system.

MAINTENANCE: The telecab system shall be maintained in accordance with the design and the applicable codes and standards. The contractor shall be responsible for providing a maintenance schedule and a list of parts and materials to be used in the system.
