Multiport Tee Detail:
Wood-frame Floor/Ceiling Assembly (UL Design No. L557/ QAI Design No. P321-1F)

Wood-stud Wall Assembly (UL Design No. U372/ QAI Design No. P321-1B)

Maximum density of Uponor PEX pipe is 4.85 lbs./ft. (7.22 kg/m) per cavity

- Uponor AquaPEX (up to 3")
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")

Firestop listed to ASTM E814 (must be Uponor AquaPEX pipe compatible)

Restricted load-bearing wood joist floor/ceiling assembly with maximum 2" Uponor PEX pipe

Option concrete top pour

Restricted-load bearing wood stud and gypsum wall assembly

Maximum density of Uponor ProPEX EP fittings is 3.33 lbs. (1.51 kg) per cavity

- Uponor AquaPEX
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")

UL Design No. L557
UL Design No. U372
QAI Design No. P321-1F
QAI Design No. P321-1B

Uponor AquaPEX (up to 3"")
Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
Uponor AquaPEX Reclaimed Water pipe (up to 1"")

Maximum density of Uponor PEX pipe is 4.85 lbs./ft. (7.22 kg/m) per cavity

- Uponor AquaPEX (up to 3")
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")

Optional concrete top pour

Restricted load-bearing wood joist floor/ceiling assembly with maximum 2" Uponor PEX pipe

Maximum density of Uponor ProPEX EP fittings is 3.33 lbs. (1.51 kg) per cavity

- Uponor AquaPEX
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")

UL Design No. L557
UL Design No. U372
QAI Design No. P321-1F
QAI Design No. P321-1B

Uponor AquaPEX (up to 3"")
Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
Uponor AquaPEX Reclaimed Water pipe (up to 1"")

Maximum density of Uponor PEX pipe is 4.85 lbs./ft. (7.22 kg/m) per cavity

- Uponor AquaPEX (up to 3")
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")

Optional concrete top pour

Restricted load-bearing wood joist floor/ceiling assembly with maximum 2" Uponor PEX pipe

Maximum density of Uponor ProPEX EP fittings is 3.33 lbs. (1.51 kg) per cavity

- Uponor AquaPEX
- Pre-insulated Uponor AquaPEX (up to 2" pipe with 2" thick insulation)
- Uponor AquaPEX Reclaimed Water pipe (up to 1"")
