STEEL-IT 1002 Steel Gray Polyurethane Topcoat

(includes brush grade and aerosol)

1. Features a unique stainless steel leafing pigment, and provides optimum weather-, abrasion-, and corrosion-resistance in general maintenance applications. The easy to apply coating yields a hard, non-toxic, metallic finish that protects a multitude of metallic and non-metallic surfaces from ultraviolet rays, chemicals, oils, alkalis, food acids, water immersion and high-pressure washdowns. STEEL-IT 1002 Polyurethane Topcoat is approved for use in the food processing and handling industries where *incidental* food contact may occur. These coatings will not result in adulteration of food products when used and applied in accordance with the manufacturer's instructions given in Application Guide.
2. Withstands a daily regimen of rigorous cleaning, cyclical temperature change and wet conditions.
3. Is impervious to moisture.
4. Is a solid metallic gray color due to their high loading of pure 316L stainless steel leafing pigment and will not obscure detection of debris or unsanitary conditions.
5. When fully dry and cured, the finish contains no known carcinogens, mutagens or teratogens classified as hazardous substances, heavy metals or other toxic substances.
6. Is not considered a pesticide and do not have pesticidal characteristics.

A complete chemical formulary of the materials used to manufacture these paint coatings will be provided in a timely fashion to USDA FSIS upon their request.

A handwritten signature in black ink that reads 'Michael Faigen'.
