

SINGLE DOSE

FOR AUTO SCRUBBER

Product Description & Benefits

One Bottle, One Tank - Uniquely Formulated For Your Auto Scrubber

One bottle. One tank. Whether your auto scrubber tank is 20, 25 or 30 gallons, 1 - 12 oz. bottle of *CreteClean Plus with Scar Guard - Single Dose for Auto Scrubber™* will condition and enhance regular concrete, densified concrete and densified-polished concrete floors.

Designed Specifically To Clean Concrete Floors and All Hard Surface Floors

Our proprietary polar and rinse free technologies deliver maximum cleaning efficiency and superior results. In fact, although formulated for concrete, our superior cleaning technology works equally well on all hard surface floors without causing damage to your floor or sealers (other than natural wood). Insoluble contaminants are pulled out and up from your floor, held in suspension, and then disposed of with the rinse water. No residual soils, grit or haze are left behind to dull your floor's shine or diminish its appearance.

If that isn't enough, *CreteClean Plus - Single Dose* contains "Scar Guard," our proprietary additive that nourishes the floor as it cleans. Over time, when utilized on a daily basis, Scar Guard reacts with the newly exposed concrete, creating a barrier that helps reduce the visual impact of scratches and marks on the floor, along with enhancing the results received from burnishing and diamond pads.

More Convenient, Cost Effective, Safety Driven

CreteClean Plus - Single Dose is packaged in 12 oz. single dose bottles that dilute perfectly in 20, 25 or 30 gallon auto scrubber water tanks and are easily stored on your shelves in individual cases of 12 or master cases of 48.

The 12 oz. bottles are safer and easier to handle than flexible plastic packages. It also eliminates any possibility of over or under dosing.

In addition, cost and inventory control are delivered by our **one-dose-per-tank formula and packaging. NO guesswork and NO multiple packages per tank.** *CreteClean Plus - Single Dose* provides uniformity between tanks regardless of operator changes, along with delivering the means to accurately track usage.

Technical Info +

Form:	Clear, Green Liquid with Fresh Scent Weighs 8.5 lbs / gal (1.02 kg / L)
Freezing:	If product freezes, agitate to re-emulsify
pH:	11.2 [+/- 0.5] (Concentrate) 8.3 - 8.7 (Diluted for Use)
Packaging:	12 oz. (0.35 L) Bottles 12 Bottle Case / 48 Bottle Master Case
Storage Life:	One (1) Year

Auto Scrubber Dilution Ratio

1 Bottle (12 oz)	<i>CreteClean Plus w/Scar Guard SINGLE DOSE</i>	20-30 gal <i>Fresh Water</i>
1 Bottle (0.35 L)	<i>CreteClean Plus w/Scar Guard SINGLE DOSE</i>	76-114 L <i>Fresh Water</i>

Shake well and add the entire contents of 1 bottle into an empty auto scrubber tank. Fill tank with 20-30 gallons (76-114 L) of fresh water.

Directions For Use

General Cleaning

Remove debris from area to be cleaned. Shake well and add the entire contents of 1 - 12 oz. bottle (0.35 L) into the auto scrubber tank. Fill tank with 20-30 gallons (76-114 L) of fresh water. For enhanced results, periodically burnish or buff the surface with a non-aggressive polishing pad. **Note: Test cleaner on a small, inconspicuous area to determine compatibility and effectiveness.**

Special Considerations

- Frequency of cleaning depends on the type and quantity of soilage. Contact Curecrete Distribution, Inc. to create a specific cleaning regimen for your floor(s).
- The phrase "all hard surfaces" DOES NOT include wood. Wood flexes and creates cracks in the urethane, allowing water to seep through those cracks and penetrate the wood.
- Can be used on floors with paint.

*Special Considerations continued on reverse side.

- **Suitable for use in food handling establishments.** Avoid the contamination of food in the storage and application of this product. Any food contact surfaces that come into contact with this product must be thoroughly washed with potable water.

Availability & Cost
