Description A waterborne breathable, antigrffiti treatment for use on concrete, brick, concrete masonry units and natural stone. **Protectosil ANTIGRAFFITI** protects surfaces to allow easy removal of a wide variety of graffiti, including spray paint, permanent marker, ink, bituminous paints, asphalt sealers, and other solvent or waterborne paints. Because of **Protectosil ANTIGRAFFITI's** superior performance, standard nonhazardous cleaners and low-pressure waterblasting are sufficient removal methods for most graffiti. **Protectosil ANTIGRAFFITI** is breathable a will not alter the natural appearance of the substrate. These properties make the product ideal for masonry walls. **Protectosil ANTIGRAFFITI** is based on silane chemistry. It will chemically bond to the substrate. This allows the material to undergo many cleaning cycles before retreatment is necessary. **Protectosil ANTIGRAFFITI** is especially suited for application when solvent-borne products are not acceptable, as in states that have VOC regulations for AIM coatings. **Protectosil ANTIGRAFFITI** is VOC compliant in all 50 states.

The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an “open standard” developed and managed by the HPD Collaborative, a nonprofit organization.
