Soundproof Windows Studio Series Soundproof Interior Windows

Studio Series Soundproof Interior Windows are engineered to be the market's most affordable high-performance acoustical window. The windows are a world-class studio window with maximum performance and appearance, as well as an affordable price. The windows are easy to install, and are available in many sizes and several optional finishes.

FEATURES & BENEFITS

- A truly affordable high performance noise control window
- Performance tested & certified
- STC ratings up to 58
- Custom engineered & manufactured to nearly any size
- Anodized aluminum frames with standard frame finishes of natural aluminum & bronze – also available in other specialty finishes
- Fast & easy installation – no need for a glazing contractor or special tools
- ASI includes installation instructions & necessary shop drawings
- Custom soundproof window glass available – safety glass, mirror pane, tinted, etc. (note: using custom acoustic window glass may change the STC value)
- Acoustic window glass shipped separately to avoid breakage
- Easy snap-in soundproof glass installation on job site

APPLICATIONS

Auditoriums, bars, restaurants, conference rooms, open office areas, hotels, medical facilities, sports and entertainment venues, casinos, retail, theaters, schools, audiophile rooms, recording studios, houses of worship, manufacturing facilities, courtrooms, gun ranges, laboratories, television broadcasting, radio stations, post-production studios, airports, apartments, condos, military, law enforcement and more.
