

Harlequin Ballet Barres & Brackets

Harlequin ballet barres complement any dance studio or rehearsal space. Ballet barres are an essential tool for warm-up and stretching exercises, allowing increased blood flow to the muscles, improving flexibility and lessening the risk of injury before taking to the dance floor. Harlequin offers various options of ballet barres to meet your studio and rehearsal space needs.

Harlequin Studio Series

- Beech wood barre
- Height from floor to top of lower barre – 2' 7"
- Height from floor to upper barre – 3' 4"
- Barre diameter – 1.5" (4 cm)
- Adjustable feet for stability on an uneven floor
- Quick and easy to assemble

\$325
4' Barre
• Length 52"
• Weight 20 lbs.

\$400
6' Barre
• Length 72"
• Weight 22 lbs.

Harlequin's Studio Series Ballet Barre Connector \$100

Connector allows you to combine (2) Studio Series Ballet Barres to create an 8' or 12' freestanding ballet barre. It is constructed from anodized aluminum with a smooth silver finish. Use (2) 4ft barres or (2) 6ft barres to create the extended size barres. Studio Series Ballet Barres are sold separately. Bundle packages are available through the shop.

8' Barre Bundle \$675
• (2) 4' Barres + Connector
• Weight 44 lbs.
12' Barre Bundle \$825
• (2) 6' Barres + Connector
• Weight 48 lbs.

Wall-Mounted Ballet Barre Kit

- Maple barre overall length – 5'
- Barre diameter – 2"
- Suitable for adults and children and can be mounted at any height.
- Supplied complete with screws and wall anchors suitable for solid walls only.
- Should be anchored to wood studs or wall blocking.

\$160
5' Wall Mount Barre
• Length 60"

Wall-Mounted Single

Wall-Mounted Double

Harlequin Wall-Mounted Ballet Barre Brackets

Harlequin wall-mounted ballet barre brackets are available as single and double wall mounted brackets and barres.

- Brackets are supplied complete with screws and can be mounted at any height: four fixings for the single bracket and six fixings for the double bracket.
- Barres are set at 8¼" (21cm) from the wall to the center of the barre. On the double bracket the two wooden barres are spaced 8" (20cm) apart, center to center.
- Lengths of barre can be joined inside the bracket heads to hide the joins and give the impression of a continuous length of barre. For example, along the entire length of a studio wall.
- Choice of bracket color: black (standard), chrome plated (available as special order only; minimum quantity 25).
- Wall-mounted barres should be anchored to wood studs or wall backing.

Suggested Barre Heights for Brackets:

- Single barre: 32" - 46" from floor (waist level)
- Double barre: 32" - 34" lower barre
44" - 46" from floor for upper barre

Harlequin Floor-Mounted Ballet Barre Brackets

There are many occasions when it is not possible to fix ballet barre brackets onto a wall – perhaps in front of mirrors or where a wall is not suitable to accept fixings. The solution is Harlequin's floor-mounted ballet barre brackets, designed to be permanently fitted at the same time as the installation of a Harlequin sprung floor. The vertical leg of the barre support is mounted onto the substrate and the sprung floor built around it. These barres can also be mounted onto an existing floor, provided it is not a sprung floor.

- Available in single and double barre models.

Harlequin Maple Ballet Barres

- 1¹⁵/₁₆" (5cm) in diameter
- 5ft. (15m)
- 8ft. (24m)

Wall-Mounted & Floor-Mounted Ballet Barres	Price
