

USE: Guide plate for sliding gates and self-supporting.
TYPE: Adjustable gate guide plate with long leaf for fixing.
FIXING: For fixing.

MATERIAL CG-251: Body in electrogalvanised steel and rollers in nylon.

MATERIAL CGI-251: Body in s/steel and rollers in nylon.

RECYCLING: Dispose of the body as ferrous material and the rollers as plastic material in accordance with the current laws in the country of installation.

PARTS SUBJECT TO WEAR: Rollers.

IMPORTANT: The manufacturer reserves the right to modify the characteristics of the product as required without notice. The manufacturer declines any liability for even partial modifications to the product, and the declared performance values are valid only if the installation procedures are carried out by qualified personnel. The roller does not have a load-bearing function, in only having to guide the sash vertically during its sliding movement. It must only be able to withstand minor impacts or sudden unbalancing (wind gusts, light impacts).
