Barricade

The Barricade solution results in a product that is more cost effective than "five-siding", allowing the contractor to install and follow code compliance in less time, for less money, than it would be to have it done incorrectly.

- UL tested and listed, W-L-7248, for membrane penetrations with code required equal "T" rating
- Tested in metal and wood stud construction
- Cabinets include: fire extinguisher cabinets and boxes, electrical panel boxes, med-gas mixing valves, utility boxes, wall safes, utility controllers, eye wash stations, etc
- Pre-cut kit made of 3/16 inch thick intumescent mat installs within minutes expanding during a fire to give you the protection needed
- No caulking around the perimeter when gypsum cut with no greater than 1/4 inch annular space
- Patent Pending. Made in the United States of America
