

SECTION 1: Identification of the substance/mixture and of the supplier.

Product name: SIM Crack Kit Primer
 Manufacturer/Supplier: PROFLEX® Products, Inc.
 2826 Broadway Center Blvd.
 Brandon, FL 33510

Emergency telephone number: Chemtrec 1-800-424-9300

SECTION 2: Hazards identification

Classification of the substance or mixture:

Not classified for physical or health hazards under

GHS Hazard statements: None

Precautionary statements:

If medical advice is needed, have product container or label at hand. Keep out of reach of children.
 Read label before use.

Trade Secret:

A trade secret is being claimed for a specific chemical identity and exact percentages. Other Non-GHS Classification:

WHMIS
 NFPA

SECTION 3: Composition/Information on ingredients

Ingredients:		
CAS 1336-21-6	Ammonium Hydroxide, ACS	<0.1 %
CAS 7732-18-5	Water	45-60 %
CAS confidential	Proprietary polymer	40-55 %
Percentages are by weight		

SECTION 4: First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Seek medical assistance if cough or other symptoms appear.

After skin contact: Wash hands and exposed skin with soap and plenty of water. Seek medical attention if irritation persists or concerned.

After eye contact: Protect unexposed eye. Rinse or flush exposed eye gently using water for 15-20 minutes. Remove contact lenses while rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if irritation persists or if concerned.

Most important symptoms and effects, both acute and delayed:

Irritation, Headache, Nausea, Shortness of breath; 1336-21-6: Upper respiratory tract irritation, eye damage

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water, dry chemical, chemical foam, carbon dioxide, or alcohol- resistant foam.

For safety reasons unsuitable extinguishing agents: Special

Special hazards arising from the substance or mixture: Thermal decomposition can lead to release of irritating gases and vapors.

Advice for firefighters:

Protective equipment: Wear protective eyewear, gloves, and clothing. Refer to Section 8. Wear chemical protective clothing and positive pressure self-contained breathing apparatus (SCBA).

Additional information (precautions): Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures: Ensure adequate ventilation. Ensure that air-handling systems are operational.

Environmental precautions:

Should not be released into environment. Prevent from reaching drains, sewer, or waterway. **Methods and material for containment and cleaning up:**

Wear protective eyewear, gloves, and clothing. Refer to Section 8. Containerize for disposal. Refer to Section 13. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal. Absorb with suitable material.

Reference to other sections:

SECTION 7: Handling and storage

Precautions for safe handling:

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical

materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke, or use personal products when handling chemical substances.

Conditions for safe storage, including any incompatibilities:

Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials.

SECTION 8: Exposure controls/personal protection

Control Parameters:

1336-21-6, Ammonium hydroxide, ACGIH
TLV: 17 mg/m³
1336-21-6, Ammonium hydroxide, OSHA
PEL: 35 mg/m³
1336-21-6, Ammonium hydroxide,
OSHA TWA 25 ppm (18mg/m³) ST 35
ppm (27 mg/m³)
1336-21-6, Ammonium hydroxide,
AOSIH TWA 25 ppm (18 mg/m³)
ST35 ppm (27 mg/m³)

Appropriate Engineering controls:Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Respiratory protection: Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin: Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.

Eye protection: Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

General hygienic measures: Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing. Do not eat, drink or smoke in work areas.

SECTION 9: Physical and chemical properties

Appearance (physical state, color):	Liquid, white	Explosion limit lower: Explosion limit upper:	Not Determined Not Determined
Odor:	Slight, sweet	Vapor pressure:	17 mm HG @ 20 °C
Odor threshold:	Not Determined	Vapor density:	<1

pH-value:	6 - 10	Relative density:	Not Determined
-----------	--------	-------------------	----------------

Melting/Freezing point:	Approx. 0 °C	Solubility:	Miscible
Boiling point/Boiling	100 °C at 17 mm Hg	Partition coefficient (n-octanol/water):	Not Determined
Flash point (closed cup):	Not Determined	Auto/Self-ignition temperature:	Not Determined
Evaporation rate:	Not Determined	Decomposition temperature:	> 177 °C
Flammability (solid, gaseous):	Not Determined	Viscosity:	a. Kinematic: Not Determined b. Dynamic: Not Determined
Density: 1.00-1.03 Recommended Storage Temperature: 1.0 °C - 49 °C			

SECTION 10: Stability and reactivity

Reactivity: Nonreactive under normal conditions. **Chemical stability:** Stable under normal conditions. **Possible hazardous reactions:** None under normal processing. **Conditions to avoid:** Incompatible materials. **Incompatible materials:** Hazardous decomposition products

SECTION 11: Toxicological information

Acute Toxicity		
Oral:	1336-21-6	Ammonium Hydroxide: LD50: 350 mg/kg (rat)
Chronic Toxicity: No additional information.		
Corrosion Irritation: No additional information.		
Sensitization:	Skin Sens. 1	
Single Target Organ (STOT):	No additional information.	
Numerical Measures:	No additional information.	
Carcinogenicity:	No additional information.	
Mutagenicity:	No additional information.	
Reproductive Toxicity:	No additional information.	

SECTION 12: Ecological information

Eco toxicity Persistence and
degradability: Bio accumulative
potential:

Mobility in soil: Other adverse effect

SECTION 13: Disposal considerations**Waste disposal recommendations:**

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 14: Transport information**UN-Number**

Not Regulated

UN proper shipping name

Not Regulated

Transport hazard class(es)

Packing group: Not Regulated

SECTION 16: Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SOS contains all the information required by the Controlled Products Regulations.

Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
