PRODUCT DESCRIPTION

Our insulated stucco wall panels provide an innovative way to beautify and update your home or business exterior curb appeal with so many benefits.

- An excellent choice for exteriors of residential or commercial buildings, providing a very low thermal conductivity, low moisture absorption, and are made in the USA.
- Width comes to 45.5" visible area, total 48" including tongue and groove, which are sprayed with polyurea for a waterproof connection, making total wall panel measurement 48" width, 120" height, and 3" thickness
- Designed to be impervious to the elements, fire retardant, mold resistant, energy efficient and easy to install to any building
- adding an additional R-value of 12 or more to the exterior of your walls
- Manufactured in a controlled environment for installation in an uncontrolled environment
- They can be repainted if you choose to change colors
