PRODUCT NAME: Upper Cutter
PRODUCT ID/SKU: 140UC2
MANUFACTURER:
SnapTight Products LLC
1080 S. 1st Avenue
Pocatello, ID 83201
Office: 208-252-7285
Web: SnapTightProducts.com

Patent pending Upper Cutter is a highly innovative and versatile tool to add to your workspace. Strategically designed to make the use of all cutting implements more efficient and convenient, while also elongating the life of your expensive tools and getting the most life out of the Upper Cutter itself.

- The Upper Cutter is made from medium density EPS foam which doesn't dull or bind up your blades as other materials would do
- The pyramid points and ravine like structure allows several lengths and shapes of blades to be easily utilized without cutting through the products foundation, so you can cut through it for years without compromise
- Designed so any debris such as sawdust falls into the ravines and out of the way, preventing it from binding up your blades
- Set your pencil, measuring tape, or any other tools down into the grooves so they are immobilized and easily reachable right where you need them
- Can be placed for use on top of any level surface, such as tables, sawhorses, buckets, or even the ground, and upholds the weight capacity of whatever surface it is used on
- The bottom has notched edges in order to secure it to edges of tabletops or other surfaces to add more stability when needed

Weight: 8 LBS

Whole: 71.825" L x 34.8125" W x 5.125" D

Tongue Piece: 37.0625" L x 34.8125" W x 5.125" D

Groove Piece: 35.6875" L x 34.8125" W x 5.125" D

Materials: Medium density 1.5# Virgin EPS foam
Requirements: None.

Warranty: None.
