

Jul 13, 2020

Hi Tommy,

ARCAT has been an incredibly valuable partner to Amarr and has helped us get our products specified in many projects. Through ARCAT, we are able to reach a very large number of architects, specifiers and designers. The verified statistics on downloads of our specs and drawings illustrate to us just how important ARCAT is to the community and how useful it is for us to have a strong presence on the ARCAT site.

Thanks,

Samantha
